

YES TO THE CAMPAIGN FOR TRUTH-IN-BILLING

I wish to add my voice of support for this and any bill which removes non-government fees, taxes and surcharges from my phone bill.

I am a bit surprised that I need to voice this or do corporations own the FCC now? Was this bill was only initiated due to consumer outrage. If I didn't have internet access, what would have been my recourse.

Again I hope the FCC can deliver us from these charges. eg. AT&T Wireless' "regulatory programs fee" of \$1.75/month needs to go.

Yours sincerely,  
Daniel Fischer-Pask
